Corporate Finance

Lecture 12: Final Exam Information

Camilo Saldarriaga

Finance Department, ESCP Business School, 2026/2027

General information

- The duration is 120 minutes and the exam covers the whole content of the course.
- You are permitted to use a calculator. No computers or mobile phones are allowed.
- The exam is closed book. Some essential formulas are given in the formula sheet attached at the end of the exam paper.
- The final exam is worth 70% of the overall grade.
  - The rest is the mid-term assignment grade (20%) and the myfinance lab homeworks (10%).
- Students need a minimum grade of 8 in the final exam and an overall grade of at least 10 to pass the course.

Details on the final exam

- **Bring your calculator, HB pencil, pen, eraser, and a ruler.**
- Part 1 (worth 10 points): 15 multiple-choice questions worth $2/3$ points each.
  - You must select the most appropriate response. There is just one correct answer per question.
  - You must use a hard black (HB) pencil to fill in the responses on the multiple choice answer sheet.
- Part 2 (worth 10 points): Open and calculation questions.
  - Report the main calculation steps and justify all your responses.
  - Report all numbers with four decimals and percentages with two decimals.

How to study?

- **Take** last year's exam that is available with solutions in the course content section on blackboard.
  - The final exam will be of similar length and format. It can cover questions on **any topic of the course.**
- **Review and study** all the lecture slides and recordings, your notes, corresponding book chapters, exercise sheets, last year's exam, homeworks, and Q&A forum posts.
  - You can already review your past homework attempts and the multimedia library and the study plan contain many more exercises to practice.
  - All homeworks will open again after the due date of Homework 11 until the final.
- **Post** any course-related questions in the **Q&A forum on blackboard**.
